If the thought is useful and Creative, then the action will be Fruitful and Productive.

- MAHARISHI JI

Dear children,

“Nothing can harm you as much as your own thoughts unguarded” Says Buddha. Thoughts should be positive, vibrant and innovative. Thoughts lead to action. Without thoughts one cannot perform any action. Actions are structured in thoughts. Thoughts are very powerful and they could change one’s life to any extent. If you talk about a thought that comes to your mind for more than a period of 21 days, the thought will become true and it will be part of you. There are many stories to explain how good thoughts can promote good action and the bad thoughts make even an innocent a criminal. “One small positive thought in the morning can change your whole day.” Once I heard about a story that a cook, who was preparing food, thought about a cruel act of killing throughout the process of food preparation. The innocent man, who had the food prepared by the cook, assaulted a man on his way to home. People got shocked, how this innocent man behaved as such a criminal!. When analysed, it was found that the cruel thought of the cook transferred through food to the innocent man and the thought made him a beast. This small anecdote clearly reveals how thought is powerful and can change the fate of a person. Thought is everything. Through the vehicle of meditation and pranayama, thoughts can be purified, controlled and activated in a proper channel. If thoughts are properly channelized, they will lead to growth and development. When thoughts are good and pure, they pave way for wonderful creations and innovations. Always one should have good thoughts and should be in the process of thinking or the idle mind will become the devil’s workshop and will lead to adversity and hardships. One should allow the thoughts to flow free and there should not be any wedge to the thoughts. Fear is the enemy of the thoughts. It will not only destroy the happiness but also weaken the mind and thought process. Your positive thoughts will guide you to achieve your goal, relieve you from confusion and chaos, free you from worries and help you at times of difficulties because they are strong, vibrant and have the capacity to turn you as you want. When the mind is tired, thoughts will be worthless. To energise the mind and to get good thoughts, do meditation and pranayama regularly. Positive thought in an odd situation is like an elixir (medicine) for all the misfortunes and ailments. If the thoughts are pure and have clear vision, real joy can be attained. Good thoughts are collection of good values. Our own thoughts are responsible for all our peace, happiness and respect. “Change starts in your thoughts”. In fact the thoughts of a man make his character. Thoughts play a key role in judging the personality of a man. A man, without thoughts, will be considered a dead soul. If you want to be lively, the thoughts should be motivating, energetic and creative. To be rational, thoughts are required. When unwanted and unnecessary thoughts keep coming, keep your mind calm, quite and meditate to eradicate negative thoughts. The happiness of your life depends upon the quality of your thoughts” says Marcus Aurelius. Hence, THINK MORE, THINK POSITIVELY AND THINK FREELY TO ACHIEVE EVERLASTING HAPPINESS.

## EXOTICIST MAHARISHI MAHESH YOGI AND SCIENTIST PENFIELD

Wilder Penfield was a pioneering brain surgeon, researcher and an original neurosurgeon with his path breaking neurosurgical technique known as the Penfield dissector earned the noble prize with this intellectual achievement, he operated epileptic patients while the patients were fully awake, and proved that the consciousness [mind] is in brain, through that tenacity Penfield broadened our understanding of how brain works, through this miraculous achievement he found that by stimulating the cortex (surface) of the brain we can trigger the startling physical memories, he left a lasting legacy in the field of neuroscience with holistic view of human integrity and humanity. Now, we shall scrutinize the most admiring ideas of Maharishi Mahesh Yogi who through his intellectual exoticism magnified exoticist approach with exotic ideas and views about India and set the philosophical fire blazing in the intellectual elites of Europe, through his magisterial perspective of history proved beyond an iota and shred of doubt that mind (consciousness) is not in the brain, but outside the brain which could be called as universal consciousness which contradicted the findings of the path breaking scientist Penfield, the crux was ultimately broken by Penfield himself in 1976, a few minutes before his death. He called his fellow researcher and revealed a universal truth that mind (consciousness) is outside the brain therefore the scientist complied with the exoticist. (Mahesh Yogi).

### ELIXIR ON ITS 11th HOUR

Emergence of evolution,  
Elixir of the earth was its reason,  
Two third of its once occupancy,  
Too narrowed now to its paltry vacancy  
Mega cities merely find source of ground water,  
Message to the human to be awake not little later.  
Seldom days survival without its availability,  
Say 'not too far' for its possibility  
The vast multitude of watery regions  
The world's richest of the rich nations

The above futurity is a sages premonition  
The prevalence of its state assures its confirmation.  
As it is on its 11<sup>th</sup> hour  
A drop of it may cause the third world war  
Astound not, this is too far  
A wake up call to have it occurred never  
Even a drop of its conservation  
Evacuate it's on depletion  
Evangeline not, this will do  
Emerge forthwith that I must do.

### LIFE

Life is a Novel  
Life is a Survival  
Life is a choice  
Life is a Prize  
Life is a Party  
Life is a Duty  
Accept no one's definition  
Express with any combination of a – z  
Because each of us have a different set of tests  
It's only you and only you who are going to make it  
best or worst.  
Some try to copy and fail miserably  
Life shows inequality why not your journey comfort  
Difficulty is the only thing in the common,  
Let's help each other to eradicate that con  
You have the chance to enlighten yourself and others  
And glorify everyone's life every second  
you have life  
Why not try it now?

### DEFINITION

Life has so many definitions, but accept no one's because every life is unique. Everyone has different challenges which are referred as tests in the poem. You are the one who is going to make it the best or worst, depending on the paths you take in life. Flowers make a good example, they know their life is so short, but they smile with happiness and make their surroundings happy throughout their life without the slightest worry of their life span. Life shows inequality, some are born rich, some are born poor. Taking its positive side, inequality gives the terms best and worst into existence, so the same can

be done back to life with your journey to bring and achieve the best!

Difficulty is the only common challenge in every life, let's help each other and eradicate it. You still have life! You are still able bodied!

Why not enlighten yourself and others and glorify everyone's life beginning RIGHT NOW!!!

### ..... **FORGIVENESS –** ..... **HUMAN'S REAL RICHNESS**

We all know that forgiveness is a 11-letter word. Elizabeth Mark, the great writer said that Forgiveness is just a 4-letter word – LOVE. Forgiveness is life taking out the knife out of your back which someone has poked you with and not using the knife to harm anyone else, no matter how badly they hurt you.

So why can't some people forgive?

It is because we always expect people to come and say sorry to us. My dear friends, its our memory, not theirs. Secondly, They lack the ingredient of forgiveness within them, that is Love and Compassion.

We cannot love unless and until we forgive a person. Thirdly, people don't understand the difference between weakness and wickedness. If a person hurts you, he or she may be weak not wicked and we all have weakness right? When we are so eager to receive forgiveness by someone, why we are not ready to forgive someone?

When you forgive someone you are healing yourself. Well, we all have been hurt in life. Forgive them, not because they deserve your forgiveness but because you cannot move on without forgiving. Forgiveness is your gift towards yourself. You just have to search within.

### ..... **SMILE** .....

Bright ! Bright !

Sun is Bright

Bright ! Bright !

Moon is Bright

Bright ! Bright !

Star is Bright

When you smile your day will be Bright !

– M. KAVISH, I A1

### ..... **NIGHT THAT LONGS FOR DAWN** .....

Did we ever imagine,  
About these challenging days of emptiness?

Why do we sit down,

And ponder all the day?

Where do the nagging elders,

And the chattering children vanish?

Do we have a place to play,

Or to amuse ourselves,

Who did lock us down,

Just an invisible virus?

Withstanding in the midst of deep silence,

What do we all wait for?

Aren't we praying and pleading,

To the Almighty for a miracle?

Let's wait and look forward,

Till the light dawns on us,

To live the care free life again,

For the happy gatherings everywhere,

Until then let's revive ourselves,

For mankind has to survive.

– S. YAJAS SINGH, V A1

### ..... **A WINTRY NIGHT** .....

The Sky is dark and the

Ground is white

The World is peaceful on

This wintry night

No one around not a

Sound to be heard

Not even a bird

For a moment it's just

The snow and me

I smile inside

I feel so free

– N. YESHWANTH, I A1

### ..... **MY SCHOOL** .....

My School, My School

Beautiful and so cool

Our teachers are so nice,

They give knowledge and advice

My School looks so simple,

But to us it's temple.

In the morning we pray,

Study there whole day.

When the life of school ends,  
We have bunch of many friends.  
I will only be a fool,  
If I don't miss my school.  
My School, My School  
Beautiful and so cool.

I go with a bag,  
with my school tag.  
My school uniform,  
In winter keeps me warm.  
Many books are in library,  
Some we read, some we carry.  
Blessed with a playground,  
It has greeneries all around.  
We learn in the school,  
Discipline and the rule  
My School, My School  
Beautiful and so cool.

### A LITTLE KNOWLEDGE IS A DANGEROUS THING

Knowledge is the foremost tool of empowerment. It is key to succeed in life. Knowledge, along with the power to think and analyse, differentiates men from animals. There is no denying that knowledge is the greatest asset known to man. It is perhaps one of the fundamental elements to assess where he is at the moment. Throughout history humanity has evolved implementing the knowledge gained over the years. The great scientist, Newton had observed, that knowledge is extensive. It's true that one can't master everything in the world. However, learning something incompletely can prove dangerous in the long run.

Little knowledge of a matter is dangerous. A man with little knowledge is like frog in the well. He goes boasting about his learning and knowledge. He misjudges things. A mechanic having blunt knowledge of his work may spoil the machinery. A little knowledge is very dangerous in this scientific

era. With a little knowledge of medicine, he may prescribe the wrong medicines and diagnose the patient wrongly. An engineering firm may save money by giving employment to under qualified engineers. But such a firm loses a hundred times more through wastage and inefficiency. A railway engine driver who is not an expert or a pilot who knows just a little about aeronautics may bring disaster to so many passengers. Alfred Nobel revealed the concept behind the dynamite to be used for betterment of humanity. He could not realise that it could be used for destructive purposes also. In technical matters, mastery over the subject is a must. In some cases, a little knowledge is not involved, Limited knowledge may invite many troubles. It does not contribute to the betterment of society. It makes a man dogmatic. By blowing his own trumpet, he propagates his ignorance. People having little knowledge are rude and discourgeous. Difference between a wise and a fool is that the wise know that where they are making mistake and they are wrong, this helps them to enlighten themselves with the use of knowledge by overcoming their negative parts. The wise are a kind of trees which are so down that their shadow and their fruits can be enjoyed by all.

### TEENAGE LIFE

Life as a teenage, may sometimes be hard.  
So many hurdles, hence keep up your guard.  
Not sure who's your true friend.  
Or whether you're following the latest trend.  
Well here's a little bit of an advice.  
Be true to yourself and always be nice.  
Always stand up, for what you believe.  
If there's a fight, be smarter and leave.  
Life as a teenager, may certainly be cool.  
Share your good thoughts with others at school.  
Similar minds you'll definitely find.  
Be yourself, generous and kind.

जिंदगी जीने से वो डरता है,

## अतीत का स्मरण

एक श्रमपन का जमाना था,  
जिसेमें खुशियों का खजाना था।  
चाहत चाँद को पाने की थी,  
पर दिल तितली का दिखाना था।  
खरबुर ना थी कुछ भुँह की,  
ना शाम का ठिकाना था।  
थक कर आना रकूल से,  
पर खेलने भी जाना था।  
माँ की कहानी थी,  
परियों का फसाना था।  
आरीश में कागज की नाय थी,  
हर मौसम सुहाना था।

## खुश हूँ

जिंदगी है छोटी, हर पल में खुश हूँ।  
काम में खुश हूँ, आराम में खुश हूँ।  
आज पनीर नहीं, दाल में ही खुश हूँ।  
आज गाड़ी नहीं, पैदल ही खुश हूँ।  
जिसेको देख नहीं सकता,  
उसेकी आवाज में ही खुश हूँ।  
जिसेको पा नहीं सकता,  
उसेको भोचकर ही खुश हूँ।  
आज कोई खुश है,  
उसेके खुशी में ही खुश हूँ।  
आज कोई नाराज है,  
उसेके इस अंदाज से ही खुश हूँ।  
धीता हुआ कल जा चुका है,  
उसेकी मीठी याद में ही खुश हूँ।  
आने वाले कल का पता नहीं,

## नई शिक्षा नीति - 2020

शिक्षा सभी प्राणियों का बुनियाद है। हमारे प्रधानमंत्री नरेन्द्र मोदीजी द्वारा लाया गया नई शिक्षा नीति 34 साल पुराना शिक्षा नीति की जगह लेने जा रहा है। इस नई शिक्षा नीति को कार्यान्वयन से भारत शिक्षा जगत के नई ऊँचाइयों को पार कर सकता है। फिर से भारत शिक्षा जगत का नेतृत्व कर सकता है। मगर इस प्रणाली पर हो रही राजनीति से हमारा प्रशस्त देशको गहरा धक्का लगेगा। अतः इस पर हो रही राजनीति को छोड़कर हम सब को मिलकर इसको सही तरह से कार्यान्वयन करना चाहिए।

यदि इसको सही तरह से कार्यान्वयन नहीं किया तो लेने की जगह देना भी पड़ सकता है। अतः समय पर शिक्षकों को उचित प्रकार से प्रशिक्षित तथा अभ्यास कराना चाहिए। जिससे छात्र नई शिक्षा नीति की सम्पूर्ण लाभ पा सकें।

नई शिक्षा नीति की सबसे अच्छी बात यह है कि छात्र अपनी प्राथमिक शिक्षा अपनी मातृ भाषा में ही पढ़ सकता है। हमें आशा करनी चाहिए कि यह प्रणाली सफल हो और हमारा देश सफलता की नई ऊँचाइयों को पार करे।
